

ANOTHER BIG DAY

NO LETUP IN PERMITS YESTERDAY—MANY NEW RESIDENCES

The rush for building permits by owners and contractors continued yesterday. Following is the record for the eight working hours of the day:

R. C. LaBar, 5 rooms and garage at 414 W. Wilson Ave.	\$4500
I. Cline, 5 rooms and garage at 448 W. Wilson Ave.	4500
F. J. Schulte, 5 rooms and garage at 420 W. Lexington Drive	4000
H. T. Howard, 5 rooms at 434 Howard	4000
E. F. Oberdick, 5 rooms at 1262 Boynton	3000
A. L. Kneifer, 4 rooms at 424 Milford	1500
Truitt & Carpenter, wrecking old Broadway School building	1000
R. L. Kent, 3 rooms, corner Colorado and San Fernando Road	500
Mr. Ball, garage at 432 W. Windsor Road	500
B. R. Benson, 1 room at 1220 E. Harvard	250
Frank Pash, garage at 547 Alexander	200

STUDEBAKER DROP

AMONG THE FIRST TO ANNOUNCE LOWERING OF PRICE OF CARS

The Packer & White Auto Company are announcing today a reduction in prices of all models of Studebaker cars, following advices from the factory to that effect.

"This drop is made," said Mr. Packer, "in face of the fact that the Studebaker factory is running at its full capacity day and night and is yet unable to supply the demand. There are no Studebaker cars stored anywhere in the United States. They are going out on the road as fast as they come from the factory. We received a shipment of nine cars a few days ago and these were used to fill orders. We are taking orders all the time and are filling them in rotation as fast as we can secure the cars."

Birthday Party

Little Miss Ruth Muhleman, daughter of Mr. and Mrs. F. L. Muhleman, 111 West Maple street, was hostess to a group of neighbors and cousins who called to celebrate her sixth birthday, Saturday afternoon. The children enjoyed games and had a very happy time. Lovely gifts were presented to the little hostess. In the late afternoon the guests were invited to a birthday table, where they found all sorts of goodies and the most enticing birthday cake, aglow with candles, and bearing the name "Ruth." Favors were airplanes for the boys and dolls for the little girls.

Exhibits Removed

The Tractor Show exhibits have all been removed from Verdugo Woodlands, the last going out yesterday, and about the only reminders of this greatest event of the West Coast which occupied a week's time and drew thousands of visitors from all over the country are the carpet of sawdust and the plowed-up condition of the exhibit grounds.

BUSINESS MOVED

BENTLEY-SCHOENEMAN LUMBER CO. OLD YARDS ALMOST COMPLETELY DESERTED

The last step in the complicated job of transferring the equipment of the Bentley-Schoeneman Company lumber yard from 200 East Broadway to 462 West Los Feliz Road was taken yesterday when the cement warehouse, a one-story building 20 x30, was hauled on trucks from the P. E. freight yards on Maryland avenue between Broadway and Wilson avenue to the yards at 462 West Los Feliz Road. Some lumber yet remains in the old yard to be transferred and then about the only reminder of the busy hive of industry that has occupied this location for about 15 years will be the office. The lumber sheds have mostly been torn down and moved away and eventually business or residence buildings will occupy the extensive grounds. All deliveries, practically, are now made from the Los Feliz yards, but orders are still taken at the Broadway office.

THREE MORE DAYS

TIME LIMIT SHORT FOR REGISTERING TO VOTE AT NOVEMBER ELECTION

At a committee meeting at Republican headquarters last evening the question of carelessness on the part of voters in not registering before the time of limitation which is Saturday evening, October 2d, was one of the principal questions considered. It is the imperative duty of every citizen who feels at all the responsibility of helping make the laws of the country and electing to office men to enforce these laws to qualify himself for the right of suffrage before election day. In order to do this he must be properly registered in the voting precinct in which he resides. All persons of voting age should ascertain if they are properly registered and if not they should visit one of the registrars before Saturday evening of this week. One of the newly authorized registrars is Mrs. E. W. Hayward at Republican headquarters, 114 East Broadway; others are Mrs. C. H. Bott at 113 South Brand Blvd., and Mrs. Myton at 104 South Glendale avenue.

Remodel White Home

Yesterday John Robert White let the contract to Kent & Son for the repairing of his large house at 347 North Orange which was greatly damaged by fire last Decoration Day. As much of the old frame will be used as is possible and the same general plan will be followed so as to make the repaired structure as like as possible to the old home as regards the inside arrangement. There will be some changes to the outside, notably in the roof plan and the entire structure will be painted white. When completed this will be one of the finest residences in that section of beautiful homes.

WINS AT FOOTBALL

GLENDAL HIGH WINS FIRST GAME OF SEASON WITH HOLLYWOOD, 20 TO 0

The football season was opened most auspiciously yesterday afternoon on the grounds of Glendale High when Coach Hayhurst's eleven defeated the aggregation from Hollywood High by 20 to 0. Glendale made 3 touchdowns and kicked two goals, failing on the third. Coach Hayhurst, with the assistance of his efficient aide, Prof. Alfred Cookman, has gotten together a strong and well-balanced team. The boys respond readily to training and if they keep up their present form with subsequent practice will be strong contenders for the pennant.

Yesterday's Glendale line-up was as follows:
P. McGillis, Q.; L. Herman, R. H.; P. Begue, F. B.; G. Ball, L. H.; J. Hill, C.; C. Denison, T.; V. Francy, R. G.; J. Rhodes, R. E.; B. Stone, L. E.; Wm. Farner R. T.; R. Weetman, R. G.; Referee and Umpire, A. Cookman and Collins.

MINORS DRIVE AUTOS

LAW VAGUE IN RESPECT TO PROHIBITING THIS PRACTICE

An accident resulting in very slight damages but pointing to a very serious defect in the traffic laws of the state occurred in Glendale Monday. Two autos came together at the corner of Wilson avenue and Isabel street but the names of the drivers of the two machines were refused by both when questioned. One of the cars was driven by a 12-year-old boy, and this is the feature that needs emphasis. The law is very conflicting on this point and should be clarified at the next session of the legislature. It provides that no auto shall be driven by any but a licensed operator, which provision is violated many times daily; that no license shall be issued to boy or girl under 18 but in case such license is issued, the parents shall be responsible for all acts of said minor. Judge Lowe said that a few days ago a 14-year-old boy appeared before him who had been driving a large machine yet was so small he could not reach the brake without sliding clear down from the seat. Judge Lowe holds, and his opinion is coincided with by most judges, that children under 18 should positively be prohibited by law from driving machines. The law now apparently prohibits this but it is so vague in its meaning that it is easily twisted about by a clever lawyer.

UPROAR FOLLOWS LEGION RESOLUTION

AMERICAN LEGION ADOPTS RESOLUTION FAVORING EXCLUSION OF JAPANESE PICTURE BRIDES

(Special Service to Glendale Evening News)

CLEVELAND, O., Sept. 29.—The American Legion convention today adopted a resolution favoring excluding Japanese immigrants and picture brides from the United States, and the cancellation of the "gentlemen's agreement" with Japan in respect to immigration.

The measure as introduced charged that the "gentlemen's agreement" was being constantly violated and that increasing numbers of Japanese are crossing the boundary into this country.

An uproar followed the introduction of the measure. It was sponsored by the California and other western delegates, and the delegates from Hawaii. The New York delegates attempted to have the matter put over for another year, and they were howled down. The spokesman for the South Carolina delegation made a dramatic speech in favor of the measure, declaring that the south fully appreciated the race problem confronting the Pacific coast. A tremendous cheer greeted the termination of the speech, and the votes to accept the resolution rolled up onto the stage in an ear-splitting roar.

"LEFTY" WILLIAMS TESTIFIES

TELLS OF HIS PART IN BASEBALL CONSPIRACY AND NAMED GAMBLERS INVOLVED

(Special Service to Glendale Evening News)

CHICAGO, Sept. 29.—The third confession by White Sox players indicted for alleged throwing of the 1919 world series to Cincinnati, was announced by authorities today. "Lefty" Williams, pitcher, told of his part in the alleged conspiracy, Assistant State Attorney Retlogle, in charge of the investigation, announced.

Williams was named by Joe Jackson as the man who gave him \$5000. Williams named all of the gamblers who were involved in the deal, Retlogle said. Shortly after noon Williams was taken into Judge McDonald's office and it was expected he would go before the Grand Jury.

The first indictments against gamblers alleged to have been connected with the conspiracy were returned by the Grand Jury today. "Sport" Sullivan of Boston, and a man by the name of Brown, named as the fixers by Claude Williams, were charged with a conspiracy to do an illegal act.

\$25,000 FIRE IN SAN FRANCISCO

FIFTEEN BUILDINGS DAMAGED BY BLAZE IN BLOCK BOUNDED BY MARKET, OCTAVIA AND HAIGHT

(Special Service to Glendale Evening News)

SAN FRANCISCO, Sept. 29.—Fifteen buildings were damaged to an estimated total of \$25,000 by fire which started at 5 a. m. today in the block bounded by Market, Octavia and Haight streets. The fire was believed to have started in a building recently raided as a rendezvous for drug addicts. Police thought probably someone had gone to sleep while smoking a cigarette, which started the fire.

The damage was confined chiefly to the rear end of several blocks. Policemen Albert Seman and Edward Mitchell discovered the blaze. Seman went from house to house in the block, awakening sleepers. He carried several elderly women from their rooms to safety, and was given credit for probably saving a number of lives by his prompt action.

SEATTLE BOMB WARNING

"WORKERS' FRIEND" LETTER TELLS OF PLOT TO BLOW UP POSTOFFICE AND L. C. SMITH BUILDING

(Special Service to Glendale Evening News)

SEATTLE, Wash., Sept. 29.—Crudely printed by hand and signed "A Worker's Friend," a letter warning of an alleged plot to blow up the postoffice and the 44-story L. C. Smith building in Seattle, and a financial institution in Tacoma, within twenty days, caused the entire Federal criminal machinery in this district to start action today. All of the buildings named were placed under heavy guard and agents of the department of justice and other officials were endeavoring to trace the origin of the letter and identify the writer. The communication was turned over to District Attorney Saunders.

MUST GET RECOGNITION OF U. S.

AMERICAN FINANCIERS TELL MEXICAN GOVERNMENT ON WHAT TERMS THEY CAN SECURE LOANS

(Special Service to Glendale Evening News)

WASHINGTON, Sept. 29.—American financiers have let the new Mexican government know that loans are dependent upon its obtaining recognition of the United States. This attitude of the banking interest is understood to have been made plain to General Alvarado, Mexican minister of finance, who recently returned to Mexico City from this country.

INVALIDS ENJOY IT

ENTERTAINMENT GIVEN SERVICE BOYS AT THORNYCROFT BY AMERICAN LEGION

About 15 members of the American Legion, accompanied by the orchestra and other entertainers went down to Thornycroft last night to give a program that would cheer up the invalid service boys who are quartered there. All the other inmates of Thornycroft gathered in the big room where the entertainment was held and seemed to enjoy the different numbers as thoroughly as did the service boys. The orchestra played several very fine selections. Miss Viola Yorba and Ernest Martinez gave a number of fancy Spanish dances, Miss Dorothy Morgan sang to Herb Henning's piano accompaniment, Norman Otis sang, Joe Griffin gave some fine readings and F. H. Lewis, a native Hawaiian, who lives at 373 West California, rendered several selections on the steel guitar in the plaintive style of his countrymen that is so appealing to hearers.

The audience was delighted with every number given and expressed their appreciation of the brotherly spirit that prompted the giving of this splendid entertainment.

The American Legion Post is to be congratulated on the fine array of talent included in its membership and the number of those not eligible to membership who are so willing to lend their services to the Post in every worthy cause.

STEADY ADVANCE

GLENDAL MAKING HEALTHY BUSINESS AND RESIDENTIAL GROWTH

Excavations are being made now for two large store and office buildings and for a garage 50x150 feet, all of these on South Brand. Construction work on all of them will commence early in next month. Mattison B. Jones' new 4-room office building at the northwest corner of Brand and Wilson avenue, recently completed, has every room occupied already, with real estate offices and the Daniels brick building of two rooms at 219 South Brand w s rented some days ago, though not yet completed, so it is evident that more new store rooms are needed. This renting of both business rooms and residences long before their completion is an indication of the solid growth Glendale is making, a growth far exceeding that of any other city of its size or two or three times its size in the state.

Attending Presbytery

Howard Brown and Rev. W. E. Edmonds are representing the Glendale Presbyterian church at a meeting of the Presbytery held at Highland Park. This Presbytery is one of the largest in the country, embracing four counties. The meetings opened last evening with a sermon by the moderator, Rev. W. E. Edmonds. The sessions will continue up to and including Thursday evening.

H. C. L. in England

Mrs. Manuel Glass of the Mountain Inn, 708 East Broadway, has just received a letter from a sister living in Yorkshire, England, in which some prices of food commodities are quoted. Butter is \$1.18 a pound (it was 12 cents before the war, she said), sugar 41 cents a pound, apples 6 cents each. It is evident they have profiteers in the old country as the whole Cuban sugar crop was bought by England last year at 6 cents a pound, according to American newspapers, and from that sum to 41 cents is a pretty big jump to simply cover freight from Cuba and handling charges at home.

OVERLANDS DOWN

A. B. LAWRENCE ADVERTISING IMMEDIATE DELIVERIES AT NEW PRICES

The Willys-Overland Company is among the automobile manufacturers who are announcing a reduction in prices of all models of cars according to an advertisement in this issue in which A. B. Lawrence, manager of the Overland-Glendale Motor Company, gives new prices on Overland cars. Mr. Lawrence says he has all models for immediate delivery at the reduced prices.

DAYLIGHT ROBBERS

CARPI HOME ENTERED IN BROAD DAYLIGHT BY MASKED BURGLARS

Two daring burglars broke into the home of James Carpi, 127 East Palmer avenue, and attempted to rob the house in broad daylight this morning. Mr. and Mrs. Carpi are out of town for a few days, and had arranged with Mrs. Carpi's young brother, Raymond Moniot, 416 Fernando Court, to feed the chickens during their absence. When he rode down the alley by the house on his wheel at seven o'clock this morning, he saw a big auto in the alley. He then went to the house, and through the windows, saw two men, wearing black masks, pulling over boxes in the back room. They were evidently frightened by the boy's approach, and rushed out of the house, driving away in their car immediately. The boy rode home on his wheel, and within a few minutes after he first saw the masked men, his mother, Mrs. Moniot, had telephoned police headquarters.

The Carpi house was found rifled, drawers torn open, boxes overturned and pictures scattered. No money had been left in the house, and the thieves were frightened away just as they had found and opened the boxes containing table silver.

TRACTOR SHOW

CHAIRMAN OF COMMITTEES MEET, FIND MONEY ON HAND TO PAY ALL BILLS

The chairmen of the various Tractor Show committees met in City Manager Watson's office at the City Hall last night to check over the work done and ascertain the financial status. It was found that there was enough money on hand to pay all the bills, but some of these had not yet been presented, so it was decided to ask all having bills of any kind against the Tractor Show to present them first to the chairman of the committee ordering the work done, for his O. K., and then file same with Mr. Watson, when prompt payment will be made.

When all the business is closed up a detailed report will be made, showing all the transactions of every committee and the uses to which the money raised was devoted.

Inquest Over Daujoks

An inquest was held over the remains of Fred Daujoks, killed in an auto accident near Newhall last Friday night, at the L. G. Scovern Undertaking Company yesterday afternoon at 3. The verdict was that the driver of the truck into which Mr. Daujoks' auto crashed, was responsible for the accident, in that his truck had no tail light burning. Funeral services were held this afternoon at 1 o'clock in the Scovern Undertaking Company parlors. Burial is to be in Inglewood cemetery.

PURRIER HOME

DISCHARGED FROM HOSPITAL BUT CONFINED TO RESIDENCE

A. J. Lucas and wife visited H. E. Purrier at his home near Burbank, Sunday afternoon, and found him well on the way to recovery. The bullet wounds have all healed except the one through his lungs and this is getting along very favorably. He thought to visit his many friends in Glendale this week, but was warned by his doctor not to attempt to leave home or ride in a machine for fully a month longer. The home is constantly guarded to protect Purrier from vengeful friends of the murderers. While there Mr. Lucas noticed the stuffed body of the mountain lion he and Purrier killed in Paeoma Canyon with 22 rifles a year or so ago. Regards were sent to Glendale friends through Mr. Lucas, with the hope that a visit could be paid to the city ere long.

It will be two months tomorrow since Purrier was desperately wounded and Night Watchman Robert Norman of Burbank killed by Italian bandits whom they had placed under arrest. Two of the suspected murderers, Raphael Dalo and Domenico Gays, are now in jail, but the third, Nick Turillo, is still at large.

Rev. E. O. Thayer, pastor of Casa Verdugo M. E. church, left Tuesday for Long Beach, to attend conference. Rev. Julius Soper, 1305 N. Maryland avenue, former pastor of the above church, will go to conference for one day this week.

Business Conditions

SAN FRANCISCO, Sept. 29. (United Press.)—September reports from various sections of the Twelfth Federal Reserve District indicate favorable crop conditions continue to prevail, according to the federal reserve bank's monthly statement in business and the agricultural conditions, made public today.

Improvement is noted as compared with last month in the condition of ranges and general crops in California, Oregon, Washington and Idaho. Be-lated rainfall in Nevada and Utah will not affect September field crops.

"Harvesting of all grains and pick-ing of remaining fruits are in progress and reports of good quantity and quality of yield are in the ma-jority," asserts the report, "but the prices which most of the various ag-ricultural products of this district will bring are still uncertain, and this is causing an underlying note of con-cern. A notable exception to this general statement is the wine and table grape market where abnorm-ally high prices have prevailed."

Here are some facts set forth:
Compensation for short crops of peaches and pears has been found in high prices which they brought.

Prices for the grain crops of the district generally and for the north-western apple crop are not so high as last year's.

Prunes are not selling strongly at the opening figures quoted last month.

Lemons, almonds and walnuts are facing destructive competition from Europe. Almonds have just opened at prices 30 per cent below those last year.

Prices so far offered for the pres-ent rice crop are less than those of 1919. Prices for the large wool clip of the district remain at what grow-ers consider ruinous levels.

New freight rates have seriously unsettled the Pacific Coast's lumber industry.

Mining throughout the district manifests no improvement over the inactivity of 1919.

"Business generally, however, while indicating the hesitancy natu-ral under present revisions in the wholesale prices of numerous com-modities, is reported satisfactory and sound," says the report.

Business failures show a decrease compared with last month, and labor continues to be fully employed, with-out strikes or disturbances of conse-quence. Although interest rates show no tendency to weaken, the available funds in the district seem reasonably adequate for all legitimate needs, which is encouraging in view of the heavy seasonal demand for crop mov-ing, now at its peak.

There were no changes of signifi-cance during the month in the wheat and barley crops, although in Califor-nia a considerable quantity of the 1919 barley crop is still in the farm-ers' hands. Slightly increased yields of corn and oats over 1919 are indi-cated. Increased production of hay is forecast for all states except Cali-fornia and Arizona, where slightly lower yields than last year are ex-pected.

Concerning rice, the report states that the water crisis in the rice dis-tricts has passed and although a shortage still exists, the present standing crop will be brought through. As to cotton, it is said the estimated California production is far less than the increased acreage plant-ed this year would seem to justify.

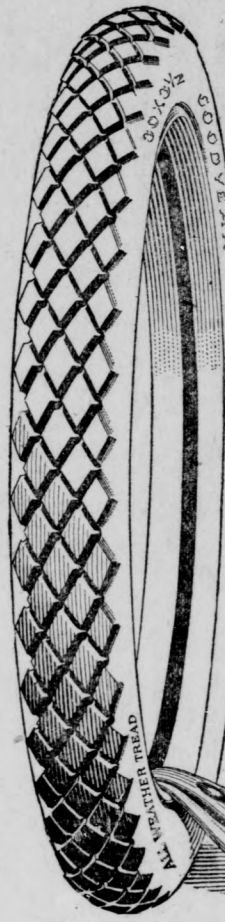

The condition of sugar beets in the district has continued good through-out the summer, the effects of a dry season in California being offset by a bumper crop in Utah.

"Heavy shipments of wine grapes have been going on all this month at phenomenal prices, due to the heavy demand for these grapes for juice purposes and grape syrup manufac-ture," continues the report. "The raisin crop has undergone no change during the month and the estimates of a crop of 200,000 tons still hold."

The report, discussing mining, calls attention to the mid-year re-ports of the United States geological survey which indicate that a condi-tion of relative stagnation still exists in the mining industry of this dis-trict, and that the total output for 1920 of the five principal metals—gold, silver, copper, lead and zinc—promises to be approximately the same as that of 1919. The combined production last year of these metals was \$223,047,967, as compared with \$407,776,869 in 1918. Indications, however, are that the silver, lead and zinc production for 1920 will show a slight increase over that of 1919.

The Reduced Cost of Tire Mileage for Your Small Car

Do you realize that Goodyear Tires are priced no higher today than in 1910 and that their mileage actually costs less than it did a decade ago?

During this period Goodyear has been able steadily to increase the amount of mileage built into its tires and, consequently, the cost of Goodyear mileage has actually declined.

In no part of the Goodyear line has this decline been more marked than in the present 30 x 3-, 30 x 3 1/2- and 31 x 4-inch sizes of Goodyear Tires, made especially for small cars.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Sta-tion for them—get the unusual value contained in their construction and delivered in their mileage.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50
30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protec-tion is available? 30x3 1/2 size \$4.50 in waterproof bag.

America's Loss

Nearly 100,000 American farmers have purchased 3,000,000 Canadian acres this summer says a news dis-patch, whereupon an exchange com-ments: They are transplanting their food producing energies to Canada, to the Dominion's profit and to Uncle Sam's loss.

They are going largely because of their inability to make a profit grow-ing food upon high-cost acres of the United States. Land in Canada is cheap. The time is coming when it won't be cheap. Acreage will cost as much there as here. And then what is the farmer going to do? Where is he going? The rest of the world, ex-cepting Siberia and the Sahara, al-ready is crowded.

Maybe by that time he will have learned the secret of the Overcrowd-ed Dane, Hollander and Belgian. He will try to grow more food in a small-er area. He will cultivate more in-tensively. He will try doing what Jim Hill advised years ago. He will make two blades grow where one has grown. He will harvest more bush-els to the acre. The wiser of the ag-riculturists already are doing that. They find it more profitable and more comfortable than selling out and settling in a colder climate.

Women in Politics

Now that votes for women in all the states has become an accomplish-ed fact through the federal amend-ment, one does not hear so much of the "contamination of women by par-ticipation in politics." It is evident that the bugaboo never had any real-ly honest purpose back of it.

Women are entering into active work for both the Republican and Democratic parties, and the minor parties also have their adherents among the gentler sex. There is no reason to fear that women will not conduct themselves in a dignified and aggressive manner.

There will hardly be any organiza-tions advocating that women refrain from exercising the right to vote, for the declaration of one's principles through the ballot is one of the car-dinal duties of every citizen, and even the anti-suffragists will hard-ly go to the extreme of urging women to neglect their duties to the state and nation.

It would seem to depend upon the attitude of the male voters whether there will be a woman's party that will have an important influence on the elections. If men join in bring-ing about needed reforms in the country, they have little reason to fear that women will form a separ-ate party.

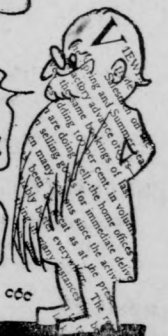

The best interests of women seem to lie in forming a "balance of pow-er" between the old parties, control-ling enough mobile votes to keep both parties in line for the things which make for the best interests of the nation—just as independent male voters have been able to do effective-ly at times.

It is a high privilege which the na-tion has conferred upon women in all the states, and the right of fran-chise should not be permitted to be-come non-effective by the refusal of any considerable number of women to vote. Their influence in nation, state and district has become practi-cal through the franchise.

VISITS OLD HOME

J. B. DONER FINDS CANADIAN BIRTHPLACE SAME OLD TOWN

J. B. Doner and wife are back in Glendale after five weeks of travel and visiting the scenes of their youthful days, his in Canada and hers in Illinois. They left by the Santa Fe on August 22d and went through on that line to Chicago, then took the Grand Trunk for Toronto, Canada. Sixteen miles from there is the little town of Richmond Hill, where Mr. Doner was born. He found the town little if any larger than when he left it in his early youth to go to Stainer, on Georgian Bay, less than a hundred miles distant, with his parents. There he spent his days as boy and young man. When he left there it was a lively, bustling little town with sawmills, elevators, two banks and prosperous business houses. Now the forests have all been cut down and the lumber mills have departed; the elevator has disappeared, also, as two new railroads not far distant have stolen away the grain trade. So the old town has gone backward. Mr. Doner says the old homestead is still standing and he put his finger on the very doorlatch he pressed so many times as a boy. But there is no spirit of progress, no building of highways and no reaching out for new trade. The people there have heard of Los Angeles and Glendale, as they have in Toronto and Richmond Hill, and many of them are coming out here this fall or winter or possibly next spring, when some of them drive through. At Richmond Hill the Doners visited a daughter and in Stainer, where he lived on a farm for 15 years, they were guests of a sister and brother. They went back from the latter place to spend another week in Richmond Hill and attend the Toronto Exposition.

From Canada they went to Lark and Milledgeville, Illinois, in which section Mrs. Doner has a host of relatives and they visited them in relays, Mr. Doner said. Twenty or thirty of them would meet in some appointed spot and picnic and chat all day with the Doners and the next day they would meet another group, and so on. In Milledgeville they met many friends of the editor of the Evening News, who had lived there 12 years and served as principal of the schools for four of these. From here they went back to Chicago and then visited Kansas City, going from the latter place to Wilsey, Kansas, where they had lived 10 years and where Mr. Doner started the city's first lumber yard, in 1882. Here they spent three days and visited the old home—a cyclone had destroyed 28 years ago. From Wilsey the start for home was made and they arrived on September 26th, having been gone five weeks and a day.

Mr. Doner said building was at a standstill in the East. He heard much talk and answered many questions wherever they went about California and its wonderful highways. Many people declared their intention of visiting the Southland this fall and winter, some of them to stay.

Sure Identification

Have the baby's finger prints taken as soon after birth as possible, for purposes of identification. This is the suggestion of authorities who are directing the search for the little Coughlin baby who was stolen from his home in Norristown, Pa., three months ago.

Two or three children have been presented to the parents for identification, but thus far they have not found their own baby. The other day they were asked whether they could be sure in their identification. The father asserts that no mother could be mistaken in her child, and there must be some family resemblance which would be unmistakable. Probably both are correct. Yet the last faint trace of doubt could be removed in any such case were the child's finger prints on record anywhere. These never change.

Of course no parents ever expect their children to be lost or kidnapped, and such a precaution seems little short of ridiculous in the face of watchful parental love. Yet every day some little child disappears in spite of all this love and care. It may be the little one run down by an automobile in his own neighborhood and carried off to the hospital or morgue, and nobody the wiser; or it may be the kidnapped child found after a long search; or it may be the older run-away gone adventuring. Nobody knows when the sudden need for accurate identification may arise either for children or other elders. The finger print is sure. As we grow wiser, we may make these a matter of as careful record as births and deaths.

Merchant Marine

LONDON, Sept. 10. (By Mail. By United Press.)—The League of Nations has a merchant marine.

To date, no less than fifteen cargo and passenger carrying vessels are chartered by the League of Nations and either are, or soon will be, plying regular trade routes.

Expediency, rather than a desire to operate a merchant marine, was the cause of the venture, according to Dr. Fridtjof Nansen, arctic explorer, statesman and relief worker, who is the self-appointed director of the League of Nations fleet. This is how it happened.

Some few months ago Dr. Nansen found himself appointed to the job of repatriating some half million prisoners of war to their native lands. Half of these were in Russia—from the Baltic to the Urals—the remainder

in prison camps of the Central Empires and France. Unable to arrange for the transportation, Dr. Nansen decided to charter steamers to ply between Hamburg and other German ports and Baltic seacoast cities. The vessels were to carry Russians on one lap of the journey and a return cargo of Germans and Austrians.

During the course of negotiations it developed that many of the Russian prisoners confined in Germany and France hailed from Eastern Siberia. To transport them across Russia via land was an impossible undertaking. Consequently, two chartered vessels have been routed to Vladivostok via the Mediterranean and Indian Oceans.

In order to lessen the expenses of the undertaking, agents of the League have been scouring Germany for cargoes to carry in addition to the prisoners. For three weeks freight solicitors searched Germany for a cargo to carry as ballast to the Orient. Finally a cargo of salt was secured.

Because of the comparatively short voyages, it is not necessary to carry cargo on the trip between Baltic and North Sea ports. According to Dr. Nansen, inconceivable difficulties are encountered in the work. Ships were not securable from any of the governments immediately concerned in the movement of prisoners. France was not anxious to release the thousands of Russians held by her. The majority are engaged in road making in Algeria and other French possessions.

The Soviets, Dr. Nansen avers, have been far more considerate in co-operating with the work than any of the other governments. On the other hand they have been limited by obstacles presented because of the attitude of the Baltic states, the Siberian government and Japan.

Although the work of repatriation has been greatly hampered, it is now progressing favorably and Dr. Nansen, and his colleagues hope to have the movements well under way this fall. Because of the poorly clad and weak physical condition of many of the prisoners, projection of the work into winter would cause great hardships and suffering.

The League has secured about \$2,500,000 to carry on the work.

Personals

Mr. and Mrs. Harold H. Faries, 404 North Louise, motored to Hemet for the week-end.

R. M. Doremus and family have moved from 333 West Elk avenue to 118 Central avenue, Eagle Rock.

Mrs. F. J. Osborne of Los Angeles, formerly of 609 North Maryland avenue, visited Mrs. F. B. Land, 605 N. Maryland, last week.

Mrs. Kate La Com of 347 Oak, has returned from a several weeks' visit with a son in Salt Lake City.

Mr. and Mrs. V. M. Tresslar, 320 West Lexington Drive, motored to Riverside Tuesday, and spent the day with Mrs. Hayden, Mrs. Tresslar's mother.

Mr. and Mrs. V. N. Lewis of Minneapolis, Minn., who have purchased the home at 1350 East Howard St., will arrive Thursday to occupy it as their winter home.

Mrs. G. D. Roach is entertaining the Wednesday Club today at her new home, 459 Milford street. This is the first meeting of the club since the summer vacation.

G. A. Woodburn and wife have bought a place at 636 East Harvard and will move into it about the middle of October, renting the place they now live in at 1145 North Louise.

C. F. Parker, 221 North Central avenue, left yesterday with three Los Angeles men for Lebec, in the northern part of the state, to be gone several days on a big appraisal case.

Funeral services over the remains of Miss Frances E. Peirce will be held in the Little Church of the Flowers at Forest Lawn tomorrow at 3 o'clock p. m., Elder R. W. Munson officiating.

Clarence Blanchard of 803 East Windsor Road, who was badly injured on South Brand a few weeks ago when struck by a speeding auto as he was repairing his motorcycle, is able to be up and about the house now, though he is still very weak and suffers great pain from the hurt to his kidneys.

Mrs. Ella W. Richardson of 525 South Central avenue will have as her dinner guest this evening, J. M. Wogan, who is head salesman for the W. A. Heitman Company. Mr. Wogan has a number of Eastern friends and relatives who will come west soon to be connected with this company, and Mrs. Richardson hopes to interest them in Glendale homes through Mr. Wogan. She will spend the evening showing her guest the attractions of the city.

Mrs. J. T. Drug of 309 North Belmont street has returned from an extended trip east, having visited relatives in Stratford, Iowa, Galesburg, Ill., and other points in the middle west, stopping on her way to spend some days in San Francisco before leaving California. Mrs. Drug has been away from her home in Glendale for over three months and remarked to the Evening News today that she was happy to be back in Glendale though she has had a splendid time while away.

Mrs. Chas. Glover of 416 Myrtle Street entertained at a dinner party last evening in honor of her husband's birthday. It was a complete surprise to Mr. Glover who suspected nothing until the guests had arrived. The dinner table was lovely with a centerpiece of flowers and a festive birthday cake. Covers were laid for seven. The guests were: Mr. and Mrs. Walter Sperry, Chalmers Sperry, Miss Leona Sanker, all of Los Angeles, and Miss Clara Ringert of Glendale.

Mrs. Josephine M. Myers, 821 Mariposa street, returned last night after a delightful summer spent in the northwest. She visited Seattle, points of interest in Montana, and spent some time at the beautiful lakes in that section.

Mrs. Ethel Enyeart Richardson and little son Ralph, of Berkeley, had a delightful visit with Mrs. F. L. Muhleman, 111 West Maple street, last week. Mesdames Richardson and Muhleman were college friends at Berkeley, so were glad of the opportunity to "reminisce" together, and the occasion was equally enjoyed by their children. Mrs. Richardson is now visiting her parents in Los Angeles.

A block of ground in South Glendale bounded by Magnolia, Cypress and Central avenues and Walnut St., which a few weeks ago looked like a neglected weed patch today has the appearance of a well-plowed field, plows and discs having been run over it and the weeds turned under. And to further enhance its appearance a residence and garage, the first on the tract, are now arising and others will doubtless follow soon.

Officers of the Women's Foreign Missionary Society of the First Methodist church were entertained at the home of Mrs. T. A. Wright, of North Louise street, Tuesday afternoon. A business session was held, in which plans were laid for the coming year. A social hour followed and a dainty luncheon was served by the hostess. Officers present were Mesdames Johnston, Russell, Meagher, Geiger, Jordan, Miller, Van Acke, Heroy, Love.

Mrs. Frank Parsons of Central avenue and Mrs. Frank B. Webster of Orange street entertained in the latter's home yesterday in honor of Miss Keturah Getz, principal of Clifford Street School, Los Angeles. A delightful luncheon was served. Other guests were Mesdames Marion Elmes, Laura Gleaves, Elizabeth Boulette and Laura Hannaford; Misses Gertrude Leland, Baker, Davis, Billingsley and Leland, all of Los Angeles; Mrs. Fred Merrick, Mrs. Bloesen and Miss Shoutt of Glendale.

Business Meeting

The monthly business meeting of the Young Peoples' Christian Endeavor Society "B" of the Glendale Presbyterian church was held Tuesday evening at the Maier home, 604 North Adams street. After the usual business had been disposed of and the new officers elected for the next six months, the young people gathered around a bonfire on the lawn and with a bountiful supply of "wienies" enjoyed roasting them over the fire and eating them in the moonlight. This business meeting was indicative of the best next six months that the young people have ever known in their Endeavor work and the members are looking forward with pleasure to some hard work and real times of fellowship. Those present at this meeting departed declaring the host and hostess, Joe and Marie Maier, royal entertainers.

Glendale's Charm

A Glendale citizen who works in the classified ad department of one of the Los Angeles dailies, when asked to what he attributed Glendale's phenomenal growth, far exceeding that of any other suburb of the big city, replied that in his judgment the reasonable carfare and excellent car service, better even than that to Long Beach, were factors; and the city's beautiful location rimmed all about with the everlasting hills which look down upon orange groves and green shaded streets lined with beautiful homes, also had its effect. But, more than all, he said, Glendale's civic cleanliness and her reputation as the "city of homes," were the greatest charms to lure the newcomer, especially.

Work for Work's Sake

News dispatches tell of another rich woman who has chafed under the pall of idleness and has set up a shop in New York City. Wherein those whose chief ambition it is not to work may well find food for thought. Is idleness, even with wealth, dull and stupid, after all?

Most people start out life with expectation of the day when they shall have saved up a competence that will free them from the necessity of daily toil. They approach middle life with a fearful expectation of the time when they will no longer be able to do a day's work every day.

Notice!

I wish to correct the statement giving to me so much credit in costuming the vaudeville cast of the minstrel show given on the 23d. All but two of the cast supplied their own costumes. My attention has been called to the omission of two names in the cast, as given in Friday's News, these being Miss Esther Ralston and Mrs. Theodore Pierce. Miss Ralston devoted much time and expense in perfecting the dance which she so beautifully executed, and which proved one of the salient features of the many good ones.

LOUISE JOSEPH.

SPIRIT OF PROGRESS

WILLARD LEARNED SHOWS WHAT YOUNG MAN CAN DO WHEN HE SETS A GOAL

Hidden in the simple verbiage of a three-line classified ad in the Evening News is a story of the indomitable spirit of the American youth that impels him onward through difficulties seemingly insurmountable toward a goal he set years ago. It is this spirit animating so many American boys today that makes it impossible that this country of ours should ever be dominated by Bolshevik or their ilk.

The ad referred to is one in which a college boy wants work after school hours. He is attending Occidental and is in his Senior year. His study and recitation periods are so arranged that he gets out at noon and he wants to work all afternoon, steadily, to earn money to pay his way, as he has been doing heretofore. Five years ago this young man, Willard Learned, definitely decided to dedicate his life to the foreign missionary work. So he entered Occidental after he had graduated from Glendale High and has managed by working after hours and on Saturdays to do a great deal to pay his way through. Four years more in a medical college after his graduation from Occidental and this young man will be fitted for his life work.

This is the true American spirit, the spirit that today makes our country looked up to as the foremost nation in the world and the one that stands as a bulwark against the encroachments of things that make for disintegration and ruin.

Mothers' Reading Circle

The Mothers' Reading Circle is holding its first meeting of the season today at the home of Mrs. Hartley Shaw, 212 West Park avenue. A business session was held in the morning, and several new members were admitted. The book, "Misunderstood Children," by Elizabeth Harrison, was started, and is proving to be a very helpful volume. The ladies brought luncheon, and enjoyed a delightful spread with tea at noon. Members of this organization hope that the mothers of the southern part of this city will take advantage of these very beneficial meetings.

Accept Invitation

The Southern California Fair Association has extended an invitation to the editors of Southern California to hold their next meeting at Riverside on Friday, October 15th, as guests of the Fair Association. This invitation was very enthusiastically accepted at the meeting of the editors in Los Angeles recently, and the Fair is looking for a large attendance of the pencil pushers on that date. They will put in the day visiting the various departments of the fair, and in the evening will be entertained at a banquet at the Glenwood Mission Inn.

Work Collectively on Your Washday Problems

Women working together have secured the franchise for their sex. By striving collectively they have accomplished more than their mothers did in a thousand years of working alone.

Yet by reason of their natural isolation in the home many women are still thinking and working individually on washday problems.

Our modern cleansing methods, on the other hand, have approached nearer to perfection because we have been thinking collectively with others who are interested in up-to-date laundry methods, because we have adopted the best methods that have been advanced by laundry specialists.

And this improved laundry service is available to you. You'll find washday no longer a problem if you'll send your family bundle to us. Why not phone for one of our wagons to call?

Are Your Valuables Valuable?

If you knew that tonight your home would be visited by a fire, you would lose no time in getting your valuables together and hurrying them to a place of safety.

How do you know that your home will not be destroyed or damaged by fire? Fires break out without warning. Thieves send no advance announcements.

Your insurance policies, securities, deeds, abstracts, receipts, contracts and other records. What of them in case of fire or theft? Think of the inconvenience, if not actual loss you would suffer in losing them.

Protect Your Valuables

by placing them in a safe deposit box in our strong, modern, fire-proof, burglar-proof vault. Do it today while boxes are available. Rental \$2.50 to \$5 a year.

OCEAN FLIGHTS ABANDONED

When the Atlantic was crossed last year by both airplane and dirigible the feats were hailed as promising speedy establishment of overseas air service. It was demonstrated that the ocean could be crossed in that form of craft and enthusiastic persons at once saw visions of fleets traversing the air and bringing Europe and America within a few hours of each other.

That no effort was made to repeat the achievement this year seems odd. The distinction of being the first to accomplish such a feat no longer acting as an incentive to effort removed the sporting phase, but if air travel over the ocean has commercial possibilities it might have been expected reasonably that preliminary steps in that direction would have been taken before this time. The season for such experiments is about at an end, so that it is probable that no air passage will be attempted before another year at least.

Possibly there is not less zeal for air travel than last year, but it may be that those who would be foremost in establishing air fleets have been obliged by necessity to await more settled world conditions before engaging in an enterprise that at best is attended by hazard. In the last year aviation has progressed, but it has been confined to travel over land for the most part. Flying for 3000 miles over an unbroken expanse of water is quite different from a trip over land where there are many possible landing places if a stop becomes necessary.

It may be years before regular flying over the Atlantic is realized, but at least occasional flights should be expected and it is a cause of some surprise that nothing of the kind was attempted this year.

The male pipe-fish hatches and protects the young in a pouch under its tail.

Provision will be made to have the registrar visit homes to register persons unable to come to headquarters. Phone Glendale 535.

Fine Stock

The lovers of fine stock are looking with a great deal of interest at the Southern California Fair, October 13th to 19th. While there will be a large number of prominent breeders in various parts of the state, and some from eastern states, there will be one feature at Riverside seldom seen at a fair of its magnitude, and that is the large number of small breeders, beginners in the live stock game, who will show their product at this farmers' fair. It has been the consistent policy with the management of the Southern California Fair to encourage the small breeder, and the results of this policy are already apparent. A number of those who exhibited for the first time last year have made their entries this year with an increased herd, and the entry list already shows a considerable number of breeders of blooded stock who have never before made an exhibit. The Fair management considers this a healthy indication.

Mrs. Charlie Chaplin says her husband never did anything except think, which only proves that conclusions formed from the screen may be erroneous.

World Movie Center

The published story that magnates of the great motion picture interests are planning a combination to make London a world center for "movies," and prepare there shows for all parts of the civilized world, recalls the experiment of the late Mark Twain in exhibiting to a Chicago lyceum audience a chunk of London fog preserved in alcohol. When motion pictures become chunks of London fog, nothing but alcohol will preserve them. Prohibition enforcers will please take notice.

Monsieur Taine found the keynote of English literature in a Puritan depression produced by climate. His theory is interesting. England offers no Mollere and she offers no broad humor scenarios. Of all the big cities of the world London is the least fitted to be a world center for motion pictures. But frankly, we don't believe any world center is possible. Every land must produce its own movies in its own way, and conformed to the tastes and the ways of thought of its own people, if the motion picture is to go on conquering and to conquer.

Advertise in the Evening News.

Jail Bird 92 Years

A San Francisco man of the name William Smith was sentenced to jail for one year on account of having been found guilty of counterfeiting. A year is not a long time, but Smith has not many more years to live as he is now 92 years of age.
